

Caramel Apple Basic (Dip) Recipe

Ingredients needed:

- ★ Caramel Apple Dip Mix
- ★ 8 oz. cream cheese, softened*

You may use lowfat or nonfat products with this mix, although results may vary.

**Cream cheese may be softened in microwave. Blend cream cheese to avoid any "hot spots" before adding to recipe.*

Directions:

Add entire packet to cream cheese. Mix well. Beat with electric mixer on medium speed or by hand with fork until creamy. Chill at least 2 hours before serving. Serve with red and/or green apple slices**, other fruits, cookies or pretzels. Keep prepared dip refrigerated.

***To keep apple slices from turning brown, add 3 Tablespoons lemon juice (bottled) to 1 cup water and soak apple slices approximately 5 minutes in this mixture. Drain and serve.*
