- ★ 8 oz. cream cheese, softened\*
- ★ 8 oz. container frozen whipped topping, thawed

*\*Cream cheese may be softened in microwave. Blend cream cheese to avoid any "hot spots" before adding to recipe.*

Blend in softened cream cheese with fork, then mix well using an electric mixer (whip for approximately 2 minutes with mixer). fold in an 8 oz. container of whipped topping (i.e., Cool Whip®). Chill minimum of 4 hours. Stir before serving. Serve dollop of "fluff" on top of pound cake slices, angel food cake slices, yellow cake squares or gingerbread squares.

*If dip appears too thick after chilling, add water (1 Tablespoon at a time) to reach desired consistency.*
