

Salsa Basic Recipe

Ingredients needed:

- ★ Salsa Mix
- ★ 8 oz. tomato sauce
- ★ 1 cup water

Directions:

Mix tomato sauce and water together. Add entire packet of spices. Mix well. Do not make or serve in a metal bowl. Refrigerate minimum of 4 hours prior to serving. Maximum flavor after refrigerating 8 hours. Stir before serving. Serve with tortilla chips, vegetables, etc. Keep prepared salsa refrigerated.

Quick Method:

Follow above directions using a microwave-safe container and instead of refrigerating mix, microwave on high for 3 to 5 minutes. Stir, cover container and let set 15 minutes prior to serving.

Country Salsa Mix - Chunky Style:

Mix together 1 can (14- to 16-oz.) tomatoes (chopped, diced or crushed) and 1/4 cup water. Add entire packet of spices. Mix well. Refrigerate minimum of 4 hours prior to serving. Stir before serving. May also use quick method with this variation.
